

THOMSON REUTERS REGULATORY INTELLIGENCE

ANTICIPATE AND NAVIGATE THE GLOBAL REGULATORY ENVIRONMENT WITH CONFIDENCE

As the world's leading source of intelligent information for businesses and professionals, we intrinsically understand the ever evolving and overwhelmingly complex regulatory environment in which you operate; constantly shifting expectations of regulatory bodies, an increasing number of regulatory developments, and the rising costs of compliance.

Thomson Reuters Regulatory Intelligence delivers a focused view of the global regulatory environment, empowering compliance professionals to make well-informed decisions to manage regulatory risk with confidence using the most comprehensive and trusted intelligence available. This solution cuts through the complexity and sheer volume of regulatory content by providing clarity on what is most important to your organization in a cost-effective way.

Thomson Reuters Regulatory Intelligence combines world-class content with advanced technology to deliver a unique one-stop regulatory intelligence solution which provides:

- Unsurpassed breadth, depth and quality of regulatory intelligence with global coverage of over 600 regulatory bodies and more than 1,000 regulatory and legislative materials
- Targeted news, analysis and practical guidance from our global team of regulatory experts and journalists
- Customized 'My Updates' delivering you relevant regulatory authority notifications, pending events, analysis and practical guidance
- Exclusive taxonomy that targets critical upcoming regulatory events with powerful search functionality
- Community feature connecting you with your peers and a community of compliance and regulatory experts to unlock information
- Customizable regulatory events calendar ensuring your awareness of vital regulatory deadlines
- Enhanced reporting, allowing you to share information across your organization with easy-to-use features to support your internal audit practices

A SINGLE SOLUTION FOR ALL YOUR COMPLIANCE NEEDS

This single source solution provides all the regulatory information you need, along with a user-friendly interface for easy navigation.

- Richest regulatory content: News, analysis, regulatory and legislative materials, regulatory events, and practical guidance
- My Updates: Automated tracking of regulatory developments, managed by custom filters to keep constant track of relevant information
- Library: Access a complete catalog of relevant regulatory and legislative materials, notices, and decisions
- Advanced search: Easy navigation and searching to quickly access the specific information required

- Email alerts: Automatic updates on regulatory developments as they happen, with advance notification of changes so you have time to proactively plan your responses
- Calendar: View current and upcoming regulatory developments ensuring you don't miss regulatory deadlines
- Reports: Create and manage reports for board and organization-wide reporting, saving you considerable time
- Share: Disseminate information across the organization instantly via email
- Mobile device compatibility: Access information from anywhere
- Community: Connect with leading regulatory experts as well as your peers and be a part of the conversation as it happens
- Country Guides: Research vital details about countries where companies you are thinking of working with are based

BENEFITS: SINGLE INFORMATION SOURCE

This single source solution provides a cost-effective and simplified research process, with comprehensive content, intuitive features and user-friendly functionality. Thomson Reuters Regulatory Intelligence enables you to focus on anticipating and navigating the regulatory environment, alongside your general day-to-day responsibilities, by taking away the burden of having to manually track and monitor multiple and varied sources of regulatory information.

MORE FOCUS, LESS NOISE

Focus on the information that matters to quickly reach informed and targeted decisions. Thomson Reuters Regulatory Intelligence enables you to keep track of regulatory developments that specifically impact your organization through powerful features to search, filter and automatically monitor the relevant developments.

TRUSTED AND RELIABLE

Analysis and practical guidance is provided by our trusted global regulatory experts and editorial team, who analyze news and events on a daily basis. They provide hot topics, news and impact analysis of current and forthcoming regulations. The breadth and depth of the knowledge and expertise that goes into the collection and analysis of regulatory developments means that you consistently have access to the most thorough, accurate and reliable regulatory information available.

MANAGE REGULATORY RISK

With the shift towards bigger fines and greater personal liability, the need for organizations and compliance professionals to stay compliant has never been greater. Thomson Reuters Regulatory Intelligence reduces the potential room for errors and vulnerability within your organization by providing information that has been stringently tracked, monitored and analyzed. Content is structured and maintained to ensure you have the most up-to-date information at all times to manage and mitigate risk.

PRACTICAL AND ACTIONABLE INFORMATION

Thomson Reuters Regulatory Intelligence gives constant access to practical advice, best practice materials and knowledge to implement relevant regulatory changes within your organization, and to make sure organizational structures are aligned to current and upcoming regulations. Information and reports can be created and customized for valuable and meaningful board level reporting and shared within the organization.

CONCISE INFORMATION FOR A FOCUSED VIEW

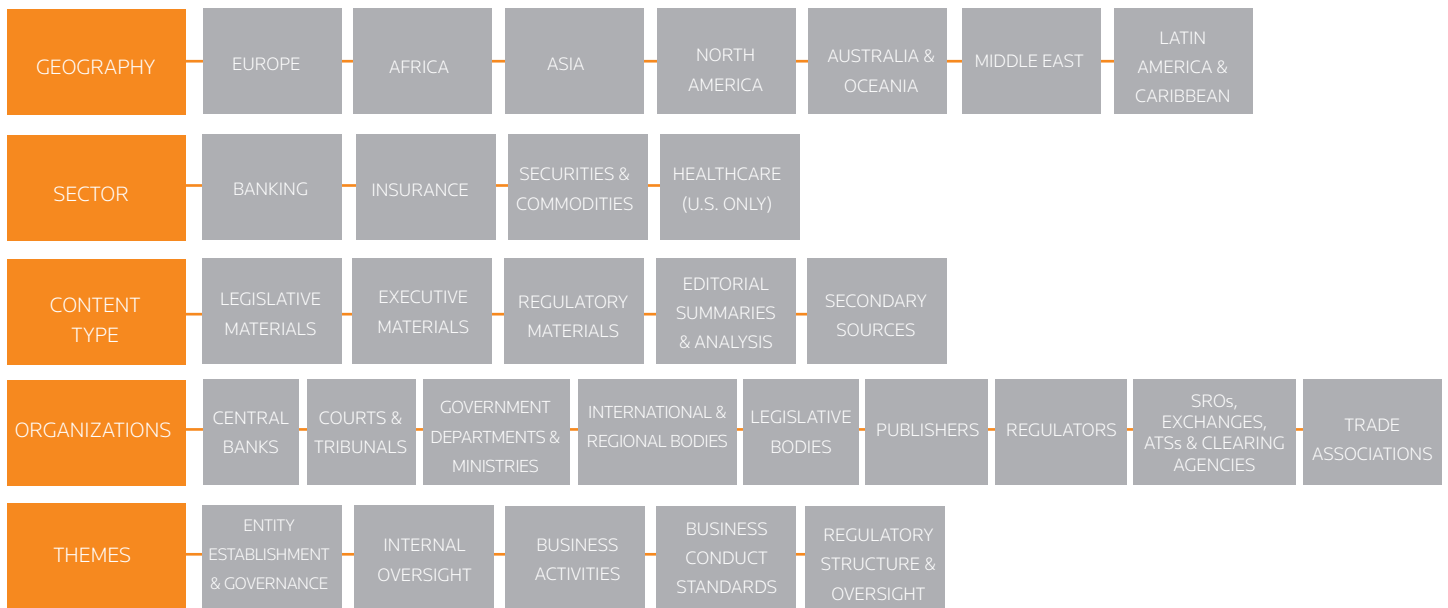

Content within Thomson Reuters Regulatory Intelligence has been configured to ensure you can easily find the relevant information to get clarity on what is most important to your organization. This simplifies the research process as you do not have to spend time sifting through vast amounts of irrelevant information. Thomson Reuters Regulatory Intelligence enables you to filter across the following five parameters:
