C-Track® is a user-friendly, case management solution that has been specifically designed to capture, track, process and report on court information, allowing more efficient handling and processing of data. This web-based software from Thomson Reuters is flexible and adaptable to ensure a seamless and efficient workflow, integrating with most applications to create a total court solution.

THE FACTS

C-Track has been a leader in court case management solutions for more than a decade – and we're backed by more than 150 years of Thomson Reuters court and legal experience. Our case management solution works across all jurisdictions – civil, criminal, family, administrative and is an enterprise solution spanning all tiers of courts.

THE SUITE OF PRODUCTS

C-Track Case Management System (CMS)

Our Case Management System manages information about cases, filings, parties, calendars and opinion processing, allowing courts to track their performance and maximise efficiency.

C-Track E-Filing

E-Filing allows parties to electronically file documents, enabling greater efficiency and reduced costs in case preparation. C-Track E-Filing is offered as a standalone solution and can be easily integrated into the court's environment or installed as a hosted solution.

C-Track Public Access

C-Track Public Access is a highly configurable application that allows the general public to search for non-confidential cases using simple search criteria such as case number, solicitor or party.

Other Modules

Other C-Track products include a criminal case module, and additional modules continue to be developed.

THOMSON REUTERS™

C–TRACK

Comprehensive. Configurable case management.

C-TRACK IN THE MODERN COURT SYSTEM

Court systems around the world today are under unprecedented pressure to cut costs, and tackle age-old challenges of delay, inefficiency and ineffective cases.

C-Track provides you with the tools to underpin lasting and meaningful reform.

FEATURES INCLUDE:

- Judge specific disposition preference templates
- Industry standard and ad hoc reporting tools for tracking and management of court performance
- Courtroom processing (including case view, participant information, hearing activities, and judicial calendar)
- Configurable activity dashboard for easy access to caseload information
- Configurable user interface that allows courts to capture information in an intuitive and easy to use method facilitating cross-training
- Open system architecture for ease of integration with external justice partners
- Electronic filing and notification system conserving resources, both in time and money

BENEFITS INCLUDE:

- Improved tracking of court activity and reporting metrics – increasing court efficiency
- Increased productivity by automating and streamlining business processes
- Alleviates congestion in the courtroom and reduces or eliminates the need for paper filing
- Increases staff efficiency and productivity by reducing redundant activities (i.e. data entry, scanning and processing of paper documents)
- Incoming documents are scanned for viruses before they can be electronically filed to ensure the safety and security of the court's system
- Web-based access allows virtual working practices and reduces needless travel
- Results in fewer lost or misplaced files
- Reduces the costs and environmental impact associated with processing, tracking, and storing paper documents

#C-TRACK

#**Highly configurable** – C-Track can be configured to meet your court's needs and is easily adaptable to unique rules and processes. C-Track also includes a tool that allows rule changes to be made quickly and easily without technical support

#**Easy** to install and maintain – The system resides on a server, giving you access right from your Web browser, meaning there's no software to install

#**Scalable solution** – C-Track is a tailored, adaptable and scalable solution, which currently supports three million cases, 20.6 million filings, and 14,500 users

#**Modularised** – Use all of C-Track, or only the modules that align with your strategic needs

#**Integrated** – C-Track can be integrated with almost any court application, from an existing case management system, to a solicitor's registration system, to an accounting or document management system

#**Comprehensive** – C-Track provides comprehensive case processing functions from case initiation through disposition and archiving. It also allows for extensive searching and real-time interactive reporting

#**Intuitive** – Prior to installation, the entire system can be reviewed and tailored to meet the specific needs of your court. The system allows intuitive document generation, event recording in real time, and custom alerting

#**Reliable** – C-Track has a proven performance record over more than ten years in a variety of courts and significantly reduces risk compared with a ground-up built system
