Legislation

Westlaw UK provides unparalleled legislative coverage for the UK, England, Scotland, Wales and Northern Ireland, allowing you to access fully consolidated and annotated legislation.

Bills

The European Union (Withdrawal) Bill became an Act of Parliament on 26 June 2018 and is now known as the European Union (Withdrawal) Act 2018 (c.16). The Government has previously announced that up to eight Bills may be required to prepare the UK for the Brexit process and implement agreements reached with the EU and other countries.

Bills can be introduced by either the Government, MPs, Lords or private organisations. As it is important for you to understand both the current state and future developments of the law, Westlaw UK provides full text coverage of:

- All Westminster Government Bills
- Selected Westminster Private Member’s Bills
- All Scottish Parliament Bills
- All National Assembly for Wales Bills

Before a Bill receives Royal Assent by the reigning monarch, various amends are made. For each individual Bill, Westlaw UK provides a Bills progress table that provides information on previously completed stages, allowing you to track how far a Bill has progressed through the relevant stages, and how close it is to becoming enacted legislation. The table provides direct access to previous iterations of the Bill allowing you to view superseded documents.

As our laws continue to develop and change, Westlaw UK allows you to access valuable future insights. Amendments from Bills are incorporated into enacted legislation allowing you to view how existing legislation will look, all before a Bill receives Royal Assent.

The Associated Documents section provides additional related information, such as library briefing papers, explanatory notes, delegated powers memorandum and amendment papers.

DID YOU KNOW?

It took just under a year for the European Union (Withdrawal) Bill to become an Act. It entered the House of Commons on 13 July 2017 and wasn’t published until 26 June 2018.
Retained EU Legislation

Although the UK will be leaving the EU, it has decided that it needs to convert EU law as it stands at the moment of exit into exit law, and to preserve UK law that implements EU obligations. This is so the UK retains a functioning statutory framework after leaving the EU.

Westlaw UK has expanded its legislative content to include full text coverage of all amended retained EU law, which includes the EU legislation exactly as it stands prior to exit day, as well as including any amendments from enacted UK law, Bills or draft Sis. The retained EU content includes a selection of:

- EU regulations, decision and EEA agreements
- EU directives

Consolidated EU PDFs

As EU legislation develops, you will be able to access fully consolidated PDFs, which will be updated as the laws are amended. In addition to this you will also be able to view the document in multiple languages, including Spanish, German, French and Swedish.

As a result of Brexit, Westlaw UK has consolidated over 65,000 amendments, 35,000 of which have been to over 3000 Retained EU documents.

DID YOU KNOW?

Each version of the European Union (Withdrawal) Bill contained 155 amendments to 20 different legislation documents. The definitive version contained 165 amendments to 20 different legislation documents. All consolidated and viewable against enacted legislation on Westlaw UK. Overall 630 amendments were incorporated over the 4 versions of the Bill.

The Legislation Compare tool...

...on Westlaw UK

The legislation compare tool allows you to compare the changes which have taken place between any 2 versions of legislation across UK, English, Welsh, Northern Irish and Scottish jurisdictions. Eliminate the need to manually compare legislation, by instantly locating every change to a provision. Compare any two provisions including historical, current and prospective versions, including bill amended text.
