## WORKSHOP DESCRIPTION

Participants in this three-day workshop learn how to design and convene authentic conversations both in-person and online, where participants speak openly and respectfully – producing increased connection, collaboration and the ability to make sense and respond to their toughest challenges.

Conversation Architect | Transformation & Complexity  
Change Awareness | Collective Sensemaking | Psychological Safety  
Embodied Leadership | Community-ship & Relationships

You will have the opportunity to examine how your interactions impact the current conversation. You will be offered leading edge conversational techniques as well as numerous experiential-based conversational practice and feedback sessions.

Join us in co-creating emergent conversational practices!
