THE WAY YOU WORK

**Connecting the practice and
business of law.**

A unique workflow solution that
enables you to plan, manage,
and execute legal matters with
data-driven confidence.

the answer company™
THOMSON REUTERS®

Built by lawyers, for lawyers, Panoramic™ is a solution like no other. It pairs the depth of content provided through Practical Law™-drafted Thomson Reuters Matter Maps™ with the budget-to-actuals data from 3E®. The result is a cloud-based solution that offers a truly integrated and holistic approach to matter management.

Created with firms like yours

Co-design partners K&L Gates and LeClair Ryan are among the many partners who supported the ideation and development of Panoramic. They, along with 22 innovation advisors and 10 beta customers, provided valuable feedback on features, user experience, and content. The Panoramic Development team, with deep experience in both law and software, used this input to develop Panoramic.

Plan Profitably

WITH DYNAMIC WORKFLOW

Make informed scoping and pricing decisions and ensure you and your clients' expectations remain aligned throughout the matter.

- Use Thomson Reuters Matter Maps to provide the client with an overview of the phases of work and core tasks your team needs to carry out when undertaking a matter
- Customise Matter Maps to reflect your firm's best practices, proprietary information, and the legal strategy needs of specific clients
- Scope the work, price, and budget new matters using data pulled in from 3E™
- Make data-driven decisions leveraging prior matter information, tasks, analytics, and financial data to inform future similar matters
- Provide lawyers with better training through Matter Maps that show best practices and typical matter events

Manage Confidently

WITH EMBEDDED GUIDANCE

Improve profitability, delegate and prioritise work, stay on top of matters, and drive consistent client outcomes with task assignment and management dashboards.

- Track the status across all of your open matters at a glance with the Matter Directory
- Give users a clear outline of what needs to get done from the onset using Matter Maps that adapt automatically to the evolving facts of the matter
- Assign work, set deadlines, and create alerts to indicate when work is assigned and completed
- Prioritise and manage tasks across matters with a personalised tasks dashboard

The screenshot displays a software interface for Thomson Reuters. The main header shows 'THOMSON REUTERS' and navigation tabs for 'Tasks', 'Matters', 'Analytics', 'Matter Maps', 'Time', and 'Admin'. The current view is for a matter titled 'Franklin Williams LLC vs Dynotech Heating and Air'. Below the header, there are tabs for 'Overview', 'Scenarios', 'Budget', and 'Work Plan', with 'Budget' selected. A summary table shows budget and actuals data. Below this is a 'Tasks' section with a table of tasks, including 'Prepare for litigation', 'Commencement and pleadings', 'Discovery', 'Motion practice', and 'Trials and judgments', each with associated hours and fees.

Execute Successfully

WITH ACTIONABLE INSIGHTS

Ensure your team executes a matter using best-in-class guidance with knowledge resources right at their fingertips. Panoramic provides links to model documents and practice guides from Practical Law embedded in customisable and dynamic Matter Maps. Activity tracking enables more accurate and consistent time entry.

- Utilise expert guidance at every stage, drafted and maintained by Practical Law editors
- As matter facts change, tasks in the Matter Map automatically update, keeping team members informed of the changes
- See what lawyers in your firm did the last time they executed a particular task
- Task-based time entry and timers auto populate fields and push to 3E as pending time
- Reconstruct your day activity timeline for quicker and more accurate time entry
