Thomson Reuters Contract Express

**Enabling self-service contracting
and efficiency through document
automation.**

The intelligence, technology and human expertise
you need to find trusted answers.

the answer company™
THOMSON REUTERS®

A wide range of organisations are using **Contract Express** to automate the creation and management of their NDAs, licence agreements, sales agreements, procurement agreements, and more.

HOW DOES CONTRACT EXPRESS WORK?

Contract Express allows you to easily create and manage documents to improve efficiency, increase productivity, and allow your legal team to concentrate on higher value work. This contract creation tool is one of the most advanced and easy-to-use systems available to streamline your document workflow.

The screenshot displays the 'Contract Express' web application interface. The top navigation bar includes 'Matters', 'Documents', 'Tasks', 'Templates', 'Contacts', and 'Admin'. The user 'Larry.Lawyer@ibon.eu' is logged in. The main interface features a sidebar with a list of sections: Buyer Details, Seller's Details, Guarantor Details, Consideration Information, Conditions, Completion Matters, Buyer's Counsel, Seller's Counsel, Seller's Bank, and Target's Details. The 'Buyer' section is active, showing a 'One only' form with the following fields: 'What is the name of the First Buyer?' (Barry Scott), 'What type of entity is the Buyer?' (a Company), 'Address Line 1' (Fine Road), 'City' (London), 'Country' (United Kingdom), 'ZIP / Post Code' (SE1 5RE), and 'State' (London). Below this is the 'Target Company' section with the field 'What is the name of the Target?' (ABC Ltd.). At the bottom, the 'NDA Details' section is partially visible. The top of the form has navigation buttons: PREVIOUS, NEXT, PREVIEW, VIEW, DOWNLOAD ANSWERS, UPLOAD ANSWERS, and SAVE & CLOSE.

WHY DO CORPORATIONS USE CONTRACT EXPRESS?

EASY-TO-USE CONTRACT QUESTIONNAIRES

Contract Express provides business users with an intuitive, self-service questionnaire to help build a contract. Questions and guidance notes are defined in the document template by the document owners.

FASTER APPROVALS AND NEGOTIATION

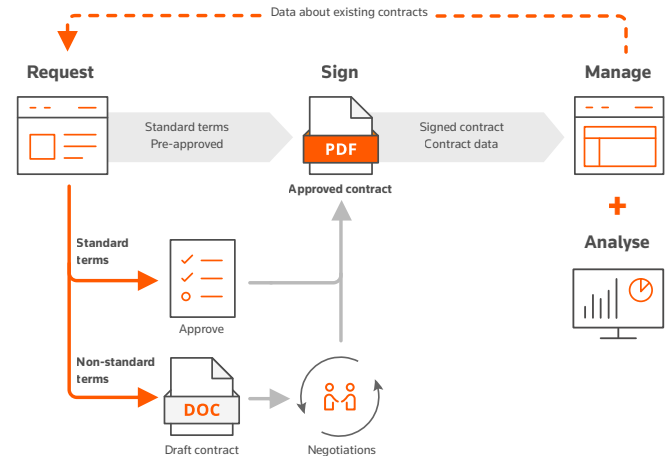

Your completed document is routed with an alert email to specific legal and/or business approvers. Those approvers can then view and edit the user's answers and approve, reject, or reassign to another approver.

RISK-FREE CONTRACTING

Contract Express will reduce delays, increase your productivity, and decrease risk by improving compliance. Greater control of the contracts used by the business and automatic routing back to legal for approval of non-standard terms means that only approved contracts leave the business.

CONTRACT DATA VISUALISATION

Surface a wide range of contract data with our analytics dashboards. Create customised charts and tables, showing contract variables such as questionnaire answers and more. Conveniently, the dashboards and underlying data can be exported in PDF, JPG or XLSX formats for easier sharing with the rest of the business.

WHAT MAKES CONTRACT EXPRESS UNIQUE?

CREATE TEMPLATES EASILY

Contract Express Author, our Microsoft® Word add-in, is one of the most advanced and easy-to-use tools available. Its natural language mark-up eliminates delays, errors, costs, loss of trust, and overall lack of feasibility of legacy tools. Legal professionals can do the work themselves without having to always rely on IT programmers to automate their legal templates, or outsource this work to our Services team.

READY TO USE, INDUSTRY STANDARD TEMPLATES

With a Practical Law UK subscription and Contract Express, corporations can get direct access to 300 pre-automated maintained templates and standard clauses from within Contract Express. Unlike the Fast Draft tool that comes with Practical Law, these templates can be fully customised. This powerful combination of Thomson Reuters' automation technology and trusted content is a game-changer for legal professionals.

COMPLETE THE DOCUMENT MANAGEMENT PROCESS

Contract Express integrates with software that lawyers know and love, such as DocuSign for safe electronic signature, iManage and NetDocuments for storage, and HighQ for client collaboration.

OFFER EXPERT ADVICE

Speed up the delivery of your expertise advice at the point of need with our Expertise Automation feature. Provide your business with suggested next steps or contact details for follow up.
